

Solatube® Skylights

HSE Performance Series

Health • Safety • Energy Efficiency

Bring the outdoors in.

Solar-Powered Fresh Breeze Skylights

Dramatically change any room with natural light and a fresh breeze. With our premium grade HSE Performance Series Skylights, you benefit from features that enhance the Health, Safety, and Energy Efficiency of your daylighting.

Features

- Solar-powered operable design lets fresh air in for cooling and healthy living spaces
- Low-E glass blocks 99% of harmful UV light, reduces solar heat gain, and minimizes glare
- Dual pane glass for high-performance thermal properties
- Integrated thermal barriers minimize heat and cold transfer
- Rain sensor automatically closes the skylight if rain is detected
- Tempered over laminated safety glass for impact protection
- Remote control for easy operation
- Designed for maximum sound absorption
- Qualifies for a Federal Tax Credit – Save \$400 – \$750!

Premium Fixed Skylights

Our premium fix skylights are beautiful on the exterior of homes. The modern, flat architectural style and energy-efficient double pane glass (argon gas filled) are stronger and longer lasting than acrylic. High-performance thermal properties keep heat in during the winter and block heat in summer.

Features

- Low-E glass blocks 99% of harmful UV light, reduces solar heat gain, and minimizes glare
- Dual pane glass for high-performance thermal properties
- Integrated thermal barriers minimize heat and cold transfer
- Designed for maximum sound absorption
- Tempered over laminated safety glass for impact protection

Choose a glass option that suits your needs.

Premium Fixed Skylights with Clear Glass

Clear Glass

Solatube Clear Glass features dual pane laminated safety glass and tempered outer glass construction. Argon gas fills the space between the panes to help repel moisture and assist with thermal reduction. The “picture frame” design provides a complete thermal break for enhanced performance, improved aesthetics, and greater flexibility of curb position.

Solar-Powered Fresh Breeze Skylights with Clear Glass

Premium Fixed Skylights with Clear Glass

SoftLight™ Glass

Solatube SoftLight Glass provides beautiful diffused natural light by reducing glare and spreading light evenly. Our SoftLight Glass Technology provides energy star level heat reduction for maximum thermal performance and comfort. SoftLight Glass gently diffuses daylight that reflects heat and washes your space with brilliant natural light.

See and feel the sunlight on your terms.

Premium Fixed Skylights with Clear Glass + Performance Skylight Shades

Performance Skylight Shades

Solatube exclusive skylight shades feature an attractive, non-woven pleated polyester fabric and a sleek powder-coated aluminum frame that will add contemporary beauty to your home while giving you control over your lighting needs. The shades can be operated by hand or by a lightweight 16-foot adjustable telescoping pole. Our shades are available in both standard and custom sizes.
